ILL-DF-12 DOWNLIGHT FITTING

APPLICATION

A compact fixed lens downlight fitting, secured through ceiling with spring clips.

Available in a range of finishes, this fitting allows for the light beam to be focused. The fitting is also suitable for mounting in the base of a display case and illuminating upwards.

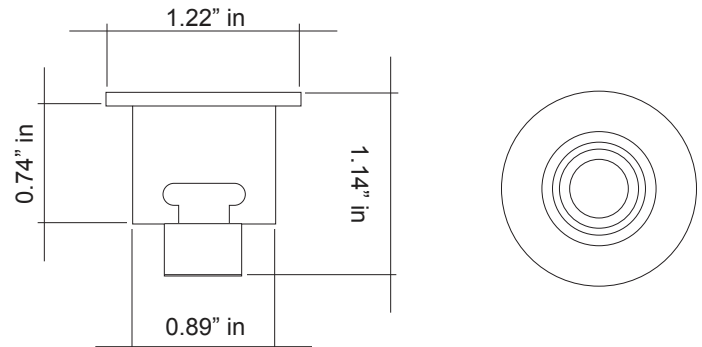

Our downlight fittings are suitable for use in a variety of different applications and are the ideal solution for the illumination of static objects within a display case or cabinet.

Uses include:

- Museum and gallery cabinet and display lighting
- Accentuation of pictures and other objects
- Illumination of shop displays
