ILL-PA-1 END FITTING SPECIFICATION

APPLICATION

A round walkover paver manufactured from stainless steel with either clear or frosted glass. The clear glass gives greater light output and also allows the light to travel further, while the frosted glass creates more of a marker light effect.

Our paver fittings are suitable for use in a variety of different applications and are the ideal solution to floor level lighting both indoors and outside.

Uses include:

- Marker lighting for pathways and entrances
 - Wall washing, inside or out
 - Uplighting columns or archways
 - Mood lighting in any room in the house, including wet rooms and pool areas
- Paver fittings can be installed in many surfaces including wooden floors, decking, paving, stair skirting and concrete.
