ILL-SF-3C SUBMERSION FITTING

APPLICATION

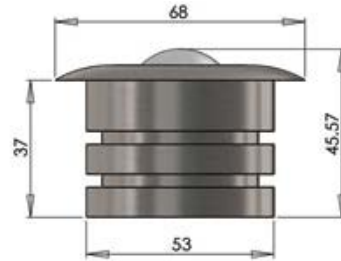

A large submersible eyeball fitting manufactured from stainless steel with a clear focusing lens.

Suitable for installation in Certiken 2" ABS pool pipe with an internal diameter of 53mm. Unlike the 1C & 2C fittings, the 3C does not require a separate back box.

A water resistant bung is also available for fitting in the opposite end of the pool pipe to provide extra protection against water ingress.
